

AKZ-UNI-1230

AKZ-UNI

## Block Loading Grabs AKZ-UNI with a Fixed Height

Specially designed for use with truck loading cranes. For the transportation of palletised and unpalletised packs of blocks.

In the case of unpalletised stone packages, ensure that the strapping is sufficiently stable.

- Light weight construction in high tensile steel.
- Fully hydraulically adjustable opening range.
- Large, low-maintenance plastic sliding guides.
- Manually adjustable pressure-reducing valve.
- Oil pressure gauge.
- Robust gear rack balance for the absolute synchronous running of the hydraulic cylinders.
- Optional available: 4 screw hooks with safety lock for holding ropes or belts, for example for BigBags. (1 hook per handle). The screw hooks must take the load in equal parts.
- The slide bearings carry a 5 year guarantee.
- The generous opening range and the quick change grippers of various lengths and design make the AKZ adaptable to carry all the usual packs of building materials (see Accessories).
